

States Will Join In Preserving Area For Public Parks

In an unprecedented joint meeting in Reno Saturday, the park commissions of California and Nevada announced they favor an interstate compact to obtain undeveloped property on both sides of Lake Tahoe for recreational purposes.

Spokesmen for both Gov. Edmund G. Brown of California and Grant Sawyer of Nevada said both are pleased with and support the bistrate approach seeking additional parks on both sides of the lake. There is every indication California will seek enabling legislation to participate financially in acquiring and maintaining the wilderness areas.

Virtually all the undeveloped land in the basin is owned by Captain George Whittell and commissioners were told that his 24,000-acre parcel is for sale for \$20,000,000. There was little discussion about where the \$20,000,000 will be found.

Two resolutions were adopted by the joint commissions and one by the Nevada commission at the close of the session. One joint resolution commends the federal forest service for halting issuance of permits for summer homes in the Tahoe area.

The major resolution, adopted by both commissions, sets forth the aims of each state to make certain as much as possible of the Lake Tahoe basin is reserved for the perpetual use of the general public.

Governor Declares For Thanksgiving

Governor Edmund G. Brown has issued a Thanksgiving Day proclamation calling on Californians to re-dedicate themselves to the principles of Thanksgiving Day expressed by the Puritans 340 years ago.

The text of Governor Brown's statement follows:

"In a world clouded with fear and uncertainty, I join with other Californians in a plea for a re-dedication to the principles of Thanksgiving Day as expressed by our Plymouth Colony forefathers 340 years ago.

"On that day, colonists and Indians joined in thanksgiving and celebration of God's gifts. There was an end to the fighting; there was peace and freedom and charity in the hearts of men.

"In recognition of those American ideals of thanksgiving on which this nation was founded, I, Edmund G. Brown, Governor of California, do hereby proclaim Thursday, November 23, 1961, as THANKSGIVING DAY in California."

Decision Delayed On New Routing For Emerald Bay

SACRAMENTO—State Highway officials disclosed an unexpectedly heavy volume of mail has delayed for 30 days a preliminary recommendation on the controversial issue of realigning State Route 89 at Emerald Bay on Lake Tahoe.

District Engineer Alan S. Hart of Marysville said a period of 30 days was allowed after September 29 public hearing at Lake Tahoe for interested persons to file written arguments. However, the filing period was extended another 30 days because of the heavy response.

Although local sentiment is heavily in favor of a low-level all-year route which would include a bridge across the mouth of Emerald Bay, Hart said the mail "predominately favors the high line."

Postmarks have been principally from bay area counties.

The park commission's opposition to bridging Emerald Bay has drawn widespread support from the Sierra Club and other naturalist and conservation organizations. They favor a longer and more costly high line involving tunnels and snowsheds as a replacement for the present winding route which is closed for long periods by landslides and winter snow.

Major Storm Here Leaves 10 Inches Snow On Ground

The storm Monday morning brought 10 inches of snow to the Truckee area, resulting in hazardous traffic conditions and ending, temporarily at least, the fire danger in the forest.

According to Henry Toccalini of the Truckee District of the Tahoe National Forest, precipitation recorded during the storm totaled .77 of an inch.

The normal precipitation for November is 3.39 inches which leaves the area still far short of the average, since the .77 of an inch was all recorded here during the month.

There was a slight drop from the 191,278 cars checked during September but was an indication of the popularity of Highway 40. The figure compares favorably with October, 1960 when 79,526 cars were checked at the local station.

Meyers on Highway 50 reported 22,777 cars, 299 trucks and 36 buses during October, a drop from the 34,981 cars checked the preceding month.

Second to Truckee was Yermo with 103,423 automobiles and 270,863 passengers.

No Substitute For Skid Chains Are Allowed On Forty

The new state law, which provides that snow tires may replace skid chains, when the signs beside the road so indicate, does not effect travel over Highway 40 between the Nevada State line and Colfax.

Lieutenant Oliver Ledford of the Truckee squad of the California Highway Patrol, said there are times when snow tires may replace chains on Route 89 and 28, but that never will they be permitted in Highway 40.

The motor vehicle code was amended in the last session of the legislature to permit use of snow tires instead of chains under certain conditions.

Lieutenant Ledford said that the decision to use chains and snow tires is made by the division of highways maintenance superintendent or foreman and the patrol is given the responsibility of seeing that drivers comply with the requirements.

Parking Ordinance For P. O. Is Passed

An ordinance prohibiting the parking of vehicles longer than 20 minutes on the west side of Bridge Street between old Highway 40 and Main Street was passed by the Nevada County Board of Supervisors at their meeting last week.

The ordinance will become effective when appropriate signs have been installed and the road commissioner was asked to install such signs.

The ordinance provides that parking shall be limited to 20 minutes between 8 a. m. and 6 p. m. every day except Sundays and holidays and violations will be declared a misdemeanor.

It was found that with the new post office on Bridge Street a serious parking situation developed. The street is narrow and does not permit many cars being parked at one time. Supervisor H. G. Loehr, who introduced the ordinance, said it is also expected to give patrons of Bank of America a better opportunity to park than at present.

The new law does not affect the east side of the street.

DONNER DOINGS

By VIRGINIA O'BEAR

We finally have the heaviest snowfall so far this winter which will give all of us the holiday spirit. With Thanksgiving Day being this Thursday, I wish to express my thanks to all of you for your friendship and consideration the past year which was a rough

one for me. I am thankful that I have my health back now and I know all of you will look around as I have and be thankful for so many things we take for granted every day.

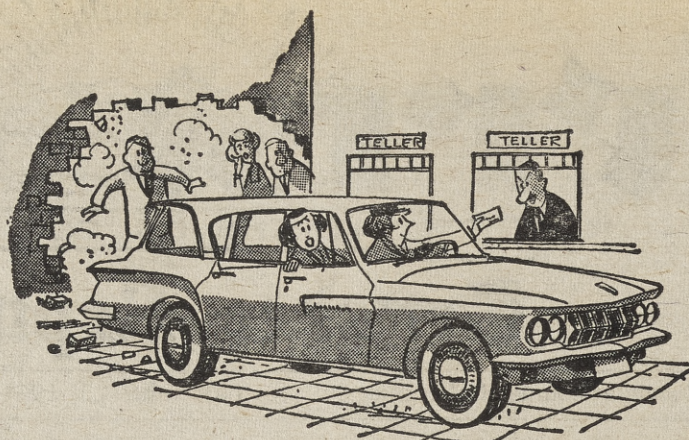

The heavy snow will most certainly end the construction work now until spring. It will be quiet around Donner Lake and Truckee until skiing season starts. If the snow continues to pack, we will have an early ski season, usually it starts Christmas week. Speak-

ing of Christmas, it is just a little over a month away. Have you started your Christmas shopping yet? If so, are you buying locally? They have some beautiful gifts on display in Truckee and Donner Lake and I figure in the long run its better to buy at home.

I stopped by at Pankoke's last week to take a peek at the dance studio and it is just beautiful! The room is just about finished and Martha is so proud of it. The color combination is very pretty and I am sure the children will enjoy themselves when they learn how to dance at this studio. Registrations are still being taken with lessons to start within a week. Donner Lake has a new business, we're growing! Donner Lake School of Dancing!

The Auxiliary of the Donner Lake Volunteer Fire Department met at the Capitol Cafe in Truckee last Thursday evening for a delicious dinner. The tables were beautifully decorated by Julia Davis and Marcella Corro with the Thanksgiving theme, using fresh fruit in baskets and little turkeys made from pine cones. After the dinner, business proceeded with a discussion on the Norden fire Wednesday evening. The Donner firemen joined the fire fighting with the Truckee, Kings Beach, Tahoe Fire Departments, and also the forestry division. The Donner firemen used their large tanker to fill the tanks of other fire trucks since the water in that area is scarce. Several families lost their homes and belongings in the fire and there is a shortage of men's clothing for some of the workers who lived up there. Anyone with extra clothing to spare may contact Gladys Dole in Truckee as she is in charge of collecting clothing for these unfortunate families. Her phone number is LUther 7-3119. After the fire discussion, the ladies voted to have a Christmas party on December 14th, inviting their husbands, the firemen and their wives as guests. The turkey and ham will be paid for out of "dues" money and the salads, desserts, etc. will be pot luck style. Hostesses for the get together will be Nancy Brodie, Muriel Wiser and Donna Warnke. There will not be a charge for the Christmas dinner but each person is to take a gift and mark it "his" or "hers." (Price not to exceed \$1.00). Nancy Brodie has a Santa Claus in mind and I hope when she asks him he will say yes. The time and place will be announced later. The clean rag detail was quite successful and the disaster committee will call a meeting soon to make slings and bandages for the firemen to use in case of emergency. You can still save your clean white rags and take them to the next meeting. A committee was formed to help the Truckee Fire-ettes wrap Christmas packages for their Annual Christmas party. Also several volunteered to guide the children on their way to see Santa Claus at the party which will be at the old Elementary school in December.

I hope all of you will have a very nice Thanksgiving with your loved ones! See you again next week so don't eat too much turkey!

"Yes madam, drive-in banks are nice, but this doesn't happen to be one."

MARITIME EXAMS TO BE HELD NEXT YEAR

Assemblyman Paul J. Lunardi, representing the sixth assembly district, announces a competitive examination for young men in his district to become his nominee for admission to the California Maritime Academy in August, 1962. The examination will be held at Sacramento on April 14, 1962; Los Angeles on April 16, 1962; and in Modesto on April 18, 1962.

The applicant with highest passing score on the tests will become the nominee of Assemblyman Lunardi. Others with passing scores may be admitted if vacancies in the quota for the entering class exist.

Under the provisions of the California Senate Concurrent Resolution No. 81 of 1955, each state senator and each state assemblyman representing an even-numbered district may nominate a young man from his district for admission to the Academy in 1962. Since the number who can be admitted to the Academy each year is limited, this method of selection insures state-wide opportunity to gain admission to the Academy and to prepare for positions of leadership in the maritime industry which is so vital to California.

SEE SON IN SOUTH
Mr. and Mrs. William Randall and children are back home after two weeks in San Diego where they visited their son, Steven, who was called into the U. S. Navy earlier this year. The family reported a very rewarding trip.

DIVOT-DIGGERS

By BETTY KIELHOFFER

Darol and Marian McGihon will be moving pretty soon into the Blatchley home which they have purchased in Gateway. The McGihons will be happy to hear, according to Mrs. Blatchley, that the residents near their home are delighted they are moving into the neighborhood. However, the friends of Mrs. and Mrs. Blatchley are sad they are moving away.

The Gene Cowells and the Lauren Russells will be building on their new lots in Olympic Heights and Donner Trail Estates, respectively, come next spring. Soon we won't know this old town, with all the new places springing up.

Another move of interest is that of Dick and Virginia Paddock. They are now renting the Harris house at Donner Lake, which is very near Dr. Tapia's home. Yep, chinchillas and all—someday they may make a fortune on those critters.

Well basketball season is just around the corner and its nice to know we are having a town team as well as the school teams. Can't say we have nothing to do this winter.

I just heard that "Butch" Beavers and Vina Shattuck, formerly of Truckee, have tied the matrimonial knot! Congratulations to two very nice people.

Dr. Marvin Schwartz and his family took off last Friday on the train for a "sentimental" journey east. . . he's introducing his wife and two little boys to his parents for the first time so this should be quite a reunion. They will be home again on the 28th. Jack Ellis just switched companies in Reno. He's now assistant manager in the truck division for Winkler Motors, likes it fine, nice going, Jack.

We attended the 2nd annual Fol-De-Rol sponsored by the Tahoe Forest Hospital Auxiliary at Squaw Valley Saturday evening and it was a very nice affair. I don't know all the names responsible for decorations but they did a beautiful job. . . looked just like a dazzling Hollywood night club. This is a very active organization and they do many good things for our hospital.

I'm writing this on Monday—was just talking to a friend in Reno and he says they have about six inches of snow there too. . . looks as if winter is upon us and with the water situation, we had better pray for a big one. Stan Zwarg, while fixing our office phone last week, told me his wife, Miriam, had taken 10 or 12 courses to perfect her culinary talents in order to do a better job of cooking for the school. . . another example of the exacting requirements necessary to be employed in the school system. . . hasta la vista!

ANGLING CHANGES WILL AFFECT TAHOE

Changes proposed in the 1962 angling regulations by the fish and game commission include a special gear restriction on Lake Tahoe and Topaz Lake.

In these two lakes not more than one rod and line with not more than three single or multiple hooks; or not more than two plugs or similar lures, irrespective of the number of hooks or attached blades attached thereto, may be used by any one person.

At its December 8 meeting in Sacramento, the commission will hear any objection to the determinations and will adopt its regulations, with minor changes, to govern the 1962 angling season.

Boy, were we ever scooped. We witnessed the price of Christmas trees soar, via helicopter (no pun),—had the "inside track" on the novel and were pushed rudely aside by the big city boys with their fancy movie equipment and news cameras. So we'll tell you all about it and if the big city papers want to "scoop" us—they'll be sorry because we can tell a better story, having the inside track. Had we anything to do with it, we would have had a Santa Claus in that there helicopter, a reindeer head on the front of that machine and done it up right. Sleigh bells and the works. For what are Christmas trees for except kids. And what's a load of Christmas trees without a Santa Claus. And we'll bet our Brownie took as good a picture as the news lens. (Disgruntled are we).

Now we haven't been able to find out if this is the first time that Christmas trees were removed from the back country via helicopter. We were nosey as the cost of same, but the figures given were "mumbled." But even if we

heard right, we got our abbaeus and believe that we came out with a saving. This project was one thought up by Paul Norboe and so we think of Paul's past experiences in Christmas tree cutting—not so much the cutting but the getting to the consumer. And we remember when Paul had 3,000 trees snowed in. And we remember Paul had expensive rigs snowed in which weren't retrieved until the following spring.

And we think that maybe 48 trees coming out on a helicopter from the back country at a time isn't half as much as could be piled on a truck, but when we "stop watched" the thing and saw load after load coming out in around 15 minutes from that back country stock pile—then our abbaeus really clicked. And you know what? They'll remove that whole darned stock pile in one day (it says here). And mayhap we'll see the Christmas tree truck drivers picketing the mountain roads after this. What say? They'll have to get a helicopter to "walk the airways" with their "Do Not Patronize."

And when you're kid looks at his Christmas tree on Christmas morning, trundling around in his

little bare feet, hair all tousled, and believe that his eyes open wider when you say, "son, this here tree that cost 40 bucks a foot, was flown in especially for you, and Santa Claus flew over the back country and cased the Christmas tree joints to pick out the very, very best." (And who knows, you might not be lying).

And now for good journalism. Specifically the Christmas tree operation, contracted for by Paul Norboe, was handled by the Rick Helicopter Company and arrangements were made by Jensen's Flying Service out of Sacramento. One helicopter was flown in early this week which was not powerful enough to do the job. Helicopter number two arrived on Thursday evening and the operation commenced on Friday a.m. It is estimated that 50 loads of trees will be removed in 12 minutes per load. (How's your abbaeus?)

We had to get the flying Christmas trees off our back before we tell you that we are going to take a vacation. And who knows—mayhap we'll get in a clam dig or two, even if the tide is knee deep. So, if you don't get a Frankly Fran report next week, you'll suffer the next week again.

A QUICK GLANCE AT THE FUTURE:

Betty Aro toils amidst poster paint and glitter as she designs posters for the Zorich Fashion Show. And incidentally we came up with our theme, "Ski Fashions Snowcase," cute?

Sorry to hear of the death of Goldie Rowton's Mother who had passed her 84th birthday. Goldie is still in the state of Kansas where her mother was interred.

Now from time to time our winter regulars come up to sniff air for that first breath of thin stuff that indicates snow. Had we started earlier in the summer with our Summit Scene we could have named the whole darned bunch of regulars. However, seeing as how we were late in getting started—we'll have to report as they come in. So in come Shirley Winther and Ruthie Corbet. Not only were they sniffing the cool air for snow indications, but they were looking for a place to house the Soda Springs ski instructors this year. And we're happy that they found just the place.

The ski school boys and girls have leased Vince Lydanne's big Soda Springs house and we know that it has more room than the room that we rented them last year which housed 10 of the group, and the rest we scattered hither and yon over this big hotel.

This is going to be an ideal situation for "our gang" and while we regret not having them under foot, and while the masculine attraction of the ski school instructors (which is akin to male movie stars to the female snow bunny) might be lacking in our establishment—well, we know that they will be less "uncluttered" in their new habitat.

And we haven't been able to pin Edvi Aro down to a firm declaration and a schedule of his winter activities but we are assured that Edvi will be the director of the Ski Ranch ski school this coming season. And Edvi, who has a great following, will be very happy to be doing his favorite occupation.

"Where did you go on your few day's vacation?" I asked Eleanor and Johnny Johansen. (Which brought forth a real "OLD TIMERS" story).

Seems like John and Eleanor were invited to Mrs. Reynolds reception—that is "Grandma Reynolds" as she is known to her many mountain friends. The reception was held in San Francisco and we learned that grandma's birthday was her 89th.

Which reminds us of the whole Reynolds family. Think they built their mountain cabin at Soda Springs in either '36 or '37. Again, we make no bones about our age when we say that we remember Richard Reynolds when he was just a young fellow. Many, many of you remember Dr. Ralph Reynolds, noted neurologist who passed away some years ago. (The community lost a good friend with his passing, tho' his permanent residence was in San Francisco). Mrs. Ralph Reynolds, Helen to her many friends, is a writer of no mean proportions.

Years ago we remember splitting our sides over her literary rendition of "Skiing Guests" of whom the Reynolds had many. Not too many years ago she came to the fore and established herself permanently in the literary field with "Gold, Rawhide and Iron"—the story of her grandfather.

The big sprawling Reynolds home at Soda Springs, which has been added to as the Reynolds family accumulated, holds about 20 people. The swimming pool and tennis court were made available to all we mountain folks.

Let's see,—as we recall there was the eldest "Nan," then Ted, then Dick. And out of these three have issued 13 (we think) grandchildren to Helen Reynolds. The great understanding and companionship between Mrs. Ralph Reynolds, and the former physician's mother has been a bond that seems much tighter than a natural mother and daughter bond. Last summer grandma came to the mountain home where

Deadly Reckoning

More than 27% of the drivers involved in fatal accidents in 1960 were under 25 years of age.

Helen gave a party in her honor, a kind of "welcome home" party.

We remember, in our former reporting days, names of prominent Californians that visited the Reynolds mountain cabin. We remember that on these crowded weekend at the mentioned cabin, that the cuisine that was sumptuously prepared was made said sumptuous by 'Grandma Reynolds'. We are reminded that grandma and the father of Dr. Ralph Reynolds homesteaded their place on Flathead Lake in Polson, Montana—and the beautiful site is still standing.

Helen is now executive vice president of California Roadside Council, and we are wondering if her great work in this field was somehow inspired by the litter bugs of Soda Springs. (We can remember her bending to pick up said litter along the road at Soda Springs as she tried desperately to keep a pace of our pet peeve—the flatlanders that come to our beautiful mountains to dump their garbage.) Well, anyway, John and Eleanor return and bring us news of the

BRUCE ALLEN SEEKS HIGH STATE OFFICE

SACRAMENTO — (CNS) — Assemblyman Bruce F. Allen, Los Gatos, has announced he will seek the republican nomination for attorney general in the primary election next year and left no doubt he would make a fighting campaign.

Allen's announcement statement, presented at three press conferences throughout the state, waited only until the second sentence to lash out at the incumbent attorney general, Stanley Mosk as not having "properly devoted his energy to protecting the people of California from crime."

The \$77,000,000 San Francisco-Oakland bay bridge is a series of structures 23,000 feet in length.

WHAT WILL \$100 MILLION BUY? A new chemistry building for the University of California's Berkeley campus is part of the answer. Proceeds from \$100 million of California State bonds delivered last week to Bank of America will help complete the new Wendell M. Latimer Chemistry Hall (backdrop above) and dozens of other educational structures on seven campuses of the University and 14 State College campuses. Looking over blueprints (above, from right) are: State Treasurer Bert A. Betts, under whose jurisdiction the bonds were sold; Alan K. Browne, Bank of America vice president in charge of the municipal bond department, which bid successfully for the bonds October 18; and Elmo R. Morgan, vice president-business at the University. When occupied next fall, the eight-story Latimer Hall will accommodate more than 1,700 chemistry students in four lecture halls and 20 teaching labs and other rooms.

ANDERSON SPEAKS DURING DEDICATION

The newest project of the California Youth Authority, a conservation camp and fire-fighting headquarters was dedicated November 4 at Washington Ridge, 90 miles northeast of Sacramento. Lieutenant Governor Glenn M. Anderson, principal speaker at the ceremonies, said the project is further evidence that, "the California Youth Authority is leading the way in substituting treatment for what has been referred to as punishment for the sake of punishment."

Anderson, describing the program as "self-promoted rehabilitation," stressed the fact that the wards of the youth authority were paying their way at this camp by protecting California's forests. "These are the boys," he continued, "who are called early and charged with establishing the fire lines and holding them until reinforcements arrive."

The lieutenant governor pointed out that youth authority wards this year have put in 84,000 man-hours fighting forest and brush fires to protect this valuable resource.

Anderson also made known tentative plans to establish the largest tree nursery in the state at Washington Ridge, — a nursery that would produce from 8 to 10 million young trees a year, enough trees to plant from 10 to 12 thousand acres of forest land.

NEVADA COUNTY TO BENEFIT FROM FEES

SACRAMENTO — (CNS) — The payment of fees for liquor license fees and the payment of fines by liquor licensees with violations of the laws resulted in the payment of \$10,516 to Nevada County and its cities for the six-month period from March 1 to August 31.

The state department of alcoholic beverage control said this included \$5,224 for the unincorporated area of the county.

Total distributions for the state for the six-month period were \$3,981,021. This amounts to all the money collected in fees and fines, minus 10 per cent for administration.

Fines, or payments in compromise, are accepted from licensees with minor violations when no public service would be closed by closing their doors with a suspension. The fines are estimated to be 20 per cent of the gross business which would result during the term of the suspension.

LAW COMPLIANCE IS KEY TO SAFE DRIVING

Compliance with the law and safety go hand in hand when you are operating a motor vehicle, California Highway Patrol Commissioner Bradford M. Crittenden said this week.

"Well-deserved emphasis has been placed on factors such as caution, alertness and courtesy, but perhaps not enough stress has been given to the inherent safety features which the law provides if you obey it," he said.

"For instance, during 1960 more than four-fifths of all fatal and injury accidents involved one or more drivers who committed a traffic violation.

"If the drivers in violation had complied with the law, a majority of the deaths and injuries which scarred our highways last year could have been avoided. And 1961 is not much different. Violations

LOCAL HIGH SCHOOL GRADUATES MAKE GOOD IN COLLEGES

The 1961 graduating class of Tahoe Truckee High School is clearly demonstrating the importance of higher education in today's society, according to the results of a recent study made by the counseling department of the school. Of the 79 graduates, 49 (62 per cent) have entered an institution of higher learning. Graduates are currently represented at Sierra and Yuba Colleges; San Jose, Sacramento and Chico State Colleges; Multnomah College of Portland, Oregon; and the Universities of Washington, California at Berkeley and Davis, Colorado, Pacific and Nevada.

Five members of the class of '61 have joined branches of the armed services, including the air force, navy and women's air force service.

Two class members are taking specialized training at beauty colleges.

Of the remaining 23 graduates, 12 are presently employed locally, three are employed outside the district, five were listed as unemployed at the time of this report, while the whereabouts of two were unattainable. Only one has married since graduation time.

The report also found that all eight members of the class who received locally sponsored scholarships have entered institutions of higher learning, thereby fully justifying the fine effort put forth by the contributing organizations and the school community as a whole.

At the present time, the following scholarships are offered: Ray Sorenson Memorial by the Lake Tahoe Lions Club; Carol Ann Quillie Memorial; the Soroptimist Club, High School P.T.A., Rainbow Girls and the Tahoe Truckee Educational Association. Other awards are presently being contemplated by local groups.

Any organization or group wishing to participate in such a worthwhile project are invited to contact local high school officials for further information.

SUBCOMMITTEE WILL CHECK ON STUDENTS

SACRAMENTO — (CNS) — An assembly subcommittee on education will look into the problem of the estimated 50,000 to 100,000 youths between the ages of 14 and 18 who do not adjust satisfactorily to a normal high school program.

Assemblyman Carlos Bee, Hayward, said the hearing will be aimed at defining the type of youth referred to as "divergent," and the problems they present in school and society.

Bee said the committee would consider to what extent pupils are retained in school when they ought to be excluded. Bee once authored a bill in the legislature to permit youths to drop out of school at an earlier age but the bill never got off the legislative ground.

The committee also will consider a program of forestry and technical schools which might provide opportunities for such youths.

of the law still are a causative factor in most of our accidents.

"The law is written to protect you, and the millions of other drivers who share the roadway with you. In complying with that law you are taking a significant step toward further ensuring your safety while on the road," he concluded.

FATE OF PATROL IS IN DRIVERS' HANDS

California's eight million licensed drivers could put the highway patrol out of business.

It wouldn't take planning, committee meetings or campaigning. But it would require an agreement—an agreement upon the part of every driver that he will obey the law.

"That sounds like an oversimplification, but actually the whole problem of enforcement can be reduced to these terms. Enforcement is necessary only because drivers violate the law. Eliminate violations and the need for enforcement is practically eliminated," CHP Commissioner Bradford M. Crittenden said.

"Even more important, the elimination of violations would in large measure wipe out accidents, because violations are a causative factor in 90 per cent of accidents."

"Obviously, this program cannot be accomplished overnight. But it does point up a surprisingly simple reality. Driving can be citation-free, hence virtually accident-free, by the observance of a single, easily remembered rule—unvarying compliance with traffic law by all drivers," the commissioner said.

INTERIM COMMITTEE TO STUDY MEASURES

Assemblyman Paul J. Lunardi, Roseville, member of the assembly committee on transportation and commerce, has announced that the chairman of the committee has released the 1961-62 hearing schedule.

Among those bills scheduled for interim study are two which were authored by Assemblyman Lunardi. Assembly Bill 1805 refers to the licensing of non-commercial use of pick-up trucks.

"Even under the present law there is an indication of a laxity in enforcement," Lunardi said. "My purpose for the introduction of the bill is to attempt to remedy the inequities and to attempt to segregate non-commercial and commercial licenses on pick-ups."

Also under study is legislation on a permissive basis to provide for the payment of a \$10 fee for vehicles under 3,000 pounds which will apply also to foreign cars used commercially.

House Resolution No. 291, by Lunardi, relates to commercial vehicle registration weight fees and the feasibility of applying fees on a functional rather than mechanical basis.

Mrs. Patrick O'Grady and daughter Patricia left their Tahoe City home last Friday to spend a week visiting with Mrs. O'Grady's parents in Concord.

Harvey and Leah Hopkins and children of the Highlands are spending Thanksgiving week-end in Sacramento.

The Herbert Beck's of Squaw Valley entertained Mr. and Mrs. Joseph O'Connor of Garden Grove for a short visit last week.

Dorothy McCaskie, impatient for snow to fall here, rushed the

season and spent several days skiing in Mammoth last week.

From glamour gal model to outdoor hunter was accomplished successfully by Geri Bean last week when she went from the Tahoe Lake teachers' fashion show at the Crystal Bay Club directly out to the hills for a little bit of hunting. And she got a buck, a big one, says she.

Larry and Rosemary Lindsey of Comstock Acres spent a pre-Thanksgiving week-end in Las Vegas where they met southern California friends for a touch of night life. Mrs. Lindsey's mother, Mrs. P. L. Fleming of Westwood, is spending Thanksgiving with them here.

Bob Beaverson returned to his Tahoe City home Sunday after spending several days in southern California.

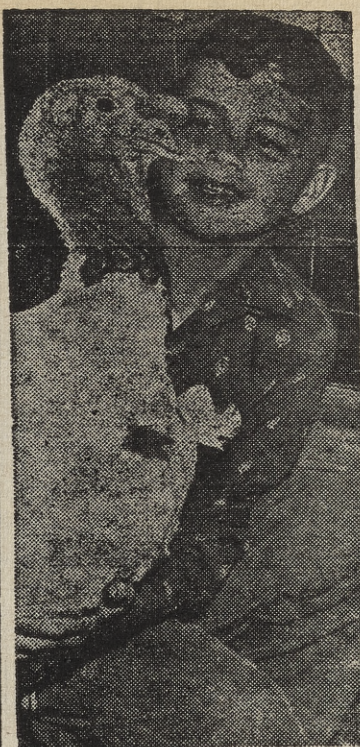

Mr. and Mrs. Jake Lusky and daughter Bone of Tahoe State Park left Monday on a three week vacation to be spent visiting friends and relatives in Fresno, Columbia and Los Angeles.

Mary and Jo Alves of Lake Forest are spending several days this week visiting in Loomis where they will celebrate their wedding anniversary.

One of the winners at the Elks Buck Stew held last Saturday night at the Elks Lodge in Tahoe Vista was Speed Hanson. According to Chairman Herb Neidig the affair was a tremendous success.

The next meeting of the Tahoe Square Dance group is scheduled to be held on Sunday, December 10th at the Tahoe Marine Lodge at 6:30 p. m. A pot luck supper precedes the dancing.

Mrs. Dave McBride of Tahoe City entertained at a bridge luncheon at her home last Friday. Among those enjoying her hospitality were Mesdames George Caulkett, Bill Becholdt, Stan Tom-

linson, Bunny Wilson, Alan Lewis and Larry Lindsey.

Mrs. Bea Lyons, neighborhood Girl Scout chairman for the Truckee Tahoe neighborhood, returned to her Tahoe State Park home after attending the week-long Region XII Girl Scout Conference held at the Statler Hilton Hotel in Los Angeles.

Fol-De-Rol in Gold Highlights: More than two hundred and fifty guests attended the dinner dance sponsored by the Tahoe Forest Auxiliary Saturday night. The affair was held in Squaw Valley at the Olympic Village. There was much oohing and aahing over the elegant decorations which were prepared under the direction of Vicki Johnson. An official tally revealed that Sue Evans was considered the best Charleston dancer of the evening. An impromptu solo was sung by Joyce Evans. Much gaiety preceded and followed the excellent steak dinner. Mike Koll officiated at the drawing for the park, which was won by Lise Fredericks, and for the champagne donated by Jack Starratt which was won by the Reverend Frank Evans. Drawing the winning tic-

kets was Sunnyside's Bill Briner. Auxiliary President Nancy Tomlinson had promised to dance 'til dawn but picked up her shoes and left at a very respectable hour. All those enjoying the festivities gave a special vote of thanks to Sophie Baker who was in charge of all arrangements for the evening.

TAHOE TRUCKEE SCHOOL NEWS

DONNER TRAIL SCHOOL
PRIMARY ROOM: This has been an exciting and tragic week. Sheri and Robin Rae Feathers lost their home in the fire at Norden. Several of the other children were

faced to leave their homes when fire threatened them. Everyone was thankful that no one was hurt. At school we have been preparing for Thanksgiving. The children made twisted crepe paper turkeys and other decorations. Deborah McGee, Bill Mason, Gayle Payne, Bonnie Hampton and Jimmy Beasley are working on an Indian mural. Grade 3-6: We are sorry to hear

that Mike Kinman will be leaving this Monday for Rough & Ready. Christine Monroe has moved also, she is living in Folsom. Spelling unit 10 this week included the following students who received 100 per cent: Susan Jang, Janice Kelly, Gary Stevers, Dennis Hampton, Susan Lummis, Don McGee, Jewel Robicheaux, Nancy Jang, Lynn Aro, Marcia Sult, Jill Vandergrift and Debbie Zorich.

TAHOE LAKE SCHOOL

NEXT MASS FEEDING LESSON ON MONDAY

The next meeting of the Canteen, the mass feeding and nutrition classes under the auspices of the Red Cross and Civil Defense, will be held Monday evening, November 27 at 7:30 p. m. in the old Truckee elementary school home economics room.

Mrs. Charles Osburn, the instructor, is willing to hold an extra meeting for those interested and having missed the first two meetings and new applications will be accepted.

There will be four more meetings to complete the course, then a half day program with all the different aids presented beside the prepared meal for the firemen.

Mrs. Osburn said plans are being made to have a mobile canteen here for display as well as a display of foods for disaster use and a unit of the radiological monitors will be here to display the equipment and demonstrate their uses.

Mrs. Osburn pointed out the importance of the mass feeding and nutrition classes designed especially for the housewife in her own home under disaster conditions. There is no obligation to join the Canteen by attending the meetings, she said.

PETROGLYPHS NEAR CISCO TO BE SAVED

CISCO GROVE—Residents of this area have expressed concern about what may happen to some 70 to 100 Indian petroglyphs which mark several granite boulders near the path of the new U. S. Highway 40 freeway.

The series of markings, thought to be done either by the Maidu, Piute or Washoe Indians at their summer hunting grounds, are located along the Yuba River about two miles northwest of Cisco Grove and north of the Cisco Butte. They contain a number of signs, some of them obviously the tracks of turkey, deer and bear.

District highway officials in Marysville explained it appears the historic marking are outside the roadway and they will not be disturbed. The site has been marked, it was pointed out, and the contractor has been instructed to watch out for them.

Before the days of modern insecticides, Duckweed Fern was used in Germany and Panama as a preventative against the breeding of mosquitos.
